Thursday	will be ready to collect	Monday after 2pm
Friday	will be ready to collect	Tuesday after 2pm

It is your responsibility to request your medication on time.

Chaperone Policy

Your health care professional may require a 'Chaperone' to be present for certain consultations in accordance with our chaperone policy. All patients are entitled to have a chaperone present for any consultation, examination or procedure where they feel one is required. Please ask any of our team for details.

Interpreter Service

We use 'The Big Word' telephone interpreter service. Patients who do not wish to use the interpreter service and who cannot speak English must bring a friend or a relative who can interpret for you..

Patient Responsibilities

- Please keep a supply at home of simple medication for coughs, colds, sore throats, diarrhoea and constipation. We only prescribe antibiotics when we think that there is an infection with bacterium, as antibiotics do not kill viruses.
- Extend the same courtesy to members of the practice team, as you would expect to receive. **Violent and abusive patients will be reported to the Police and removed from the Practice List.**
- **Home visits should be regarded as a service for the genuinely house bound and the seriously ill.** Requests for home visits need to be made **before 11am**. It is the Doctors who assess the visits requested.
- Look after your medicines. The Doctors advice and suggestions for treatment should be respected.
- Every **attempt should be made to keep your appointment and the Practice must be informed immediately if you cannot attend. You can do this by calling our automated appointment cancellation line 01924 767 098.** Continued failure to do so will result in you being removed from our Practice list.
- Arrive in good time for you appointment.

TEL: 01924 542695

Welcome

Welcome to North Road Suite Surgery, Ravensthorpe Health Centre. This leaflet briefly explains the services that we offer. The Practice covers Ravensthorpe, Mirfield, including Upper Hopton, Thornhill, Dewsbury and the Mirfield end of Liversedge. **The Surgery has disabled access.**

If you have any questions after reading this leaflet please ask a member of staff.

How to register as a patient

We will first check that you reside within our Practice Boundary area. You will be asked to complete a medical registration form, after which you will be booked an appointment with the Health Care Assistant for new patient screening. You will not be able to see a Doctor until the registration process is completed. Please help us, to help you, by carefully following the procedures for registrations as explained by our reception team. Each Patient is allocated a Named, Accountable GP who is responsible for their overall care in the Practice; however, we are a group Practice and wherever possible patients can see their GP of choice

North Kirklees Clinical Commissioning Group (NKCCG) <http://www.kirklees.nhs.uk/nhs-north-kirklees-ccg/home>

NKCCG is responsible for providing Primary Care Services and Locala for Community Health Services and making sure that these services meet the health needs of all our local communities.

The health service

In order to manage the NHS, some restricted information concerning treatments, drugs prescribed, numbers of patients seen, etc. is needed, and hospitals and general practice must provide this information in returns to central bodies. This information has personal details such as your name and address removed wherever possible. It is necessary from time to time to check these returns to prevent fraud as part of the NHS's statutory obligations. This may result in you being contacted by an NHS fraud Office to see if you will consent to your records being checked. Only if you do consent will the auditors be allowed to access your records.

Other agencies

The NHS is not the only government service to provide you with care, and it will be necessary for us to provide other agencies with appropriate information, but only with your consent (or that of your relatives if you are too ill).

Access to Health Records (view online ask us how)

Under section seven of the General Data Protection Regulations a patient may request to have access to their health records. All enquiries and subsequent applications should be made by contacting Elaine Oldroyd—Practice Finance Manager or patients registered for online services can request access via their online account.

How we protect your information

The sensitivity of patient information is well understood within the NHS. All staff and contractors are trained to respect their duty of confidentiality to you, and have this written into their contracts. We keep paper and electronic records securely to prevent unauthorized access or misuse.

Wherever practicable, we also remove references to personal details such as your name and address, and often restrict it further to reduce the chances of anyone identifying a record as relating to you. Further information is available on the Department of Health website: www.dh.gov.uk

See our Privacy and Data Sharing leaflet for more information.

Confidentiality Issues—How we use medical information

What we record

Information about you, your medical treatment, and family background may be recorded, either on paper or in computer files, as part of providing you with health services. This information is vital to the proper operation of the NHS, and is needed to give you and others the best possible health care.

How we use this information:

Your Doctor

Doctors need to make notes about any diagnosis, test results, treatments, including drugs prescriptions and other information that you may provide that seems relevant to the treatment of your condition. We keep this information in order to provide proper care for you (for later treatment, or if you should be seen by another doctor) and to allow others to check the treatment that you have received. Nurses and other health professionals also need access to these records, and will add their own notes as part of the overall healthcare provision.

Secretaries, receptionists and other clerical staff need access to some of your records in order to do administrative tasks such as; booking appointments and communicating with you and other parts of the NHS. Your doctor may also need to provide information under certain Acts of Parliament (e.g. the Communicable Diseases Act 1978— which is necessary to prevent the outbreak of certain highly contagious diseases) to protect you and others. You can record your sharing preferences with us ask one of our team.

Complaints procedure

If you have a complaint or concern about the service you have received from any of the Clinicians, or any of the staff working within the practice please let us know. We operate a practice complaints procedure as part of the NHS system for dealing with complaints. **Justin Wood, Office Manager is the Complaints Manager for the practice. Tel: 01924 846 357**
